

Parents & Swimmers,

Katy Aquatics is very excited to have you at Gulf Champs II! Please take a moment to look over the following, in order to ensure that you and your swimmers' have the best meet experience possible.

Local Traffic (FM 1093 Constructions):

Also, FM1093 is under heavy construction, so please use Fry Rd. to access the high school. From Houston take I-10 West to Katy, Exit Grand Parkway (743B) and go south on Grand Parkway for 4.9 miles. Exit Fry Rd. and turn right at the light. Seven Lakes High School is ~2.7 miles down on the left. Please take the last entrance to your left and proceed behind the school.

Seating & Deck Set-up:

Unfortunately, Seven Lakes High School has very limited seating and there will be absolutely no permanent indoor set-up for either spectators or athletes. When you arrive at the meet the indoor bleachers will be closed with the exception of the section closest to the turn end of the pool that will be reserved for grandparents or spectators that have difficulties getting in and out of the building. We do have a five lane warm up/down pool in the diving well. We are hoping for great weather as we have plenty of grassy areas around the natatorium for tents. We will be utilizing Meet Bop for this meet.

Indoor Flow of Traffic:

Please keep in mind that we will do our best to accommodate everybody at the meet, but our main focus will be on the ease of swimmers being able to get to their Heat and Lane on time. The main entrance to the pool is a double door. Please keep this area clear so that swimmers may freely enter and exit.

As always, we politely ask, you turn your camera flash off for the start of the race, and no artificial noise makers will be permitted.
