**Rules and Sanctions:**

The current USA Swimming and Gulf Swimming rules will apply. On-deck USA Swimming membership registration will not be permitted.

**Safety:**

Safety is our prime consideration. While there are no qualifying standards for this event, you should previously complete a one mile swim in 40 minutes or faster in order to swim in this event. You should be healthy and in reasonably fit swimming shape. Swimmers will be allotted 20 minutes per .5 mile to complete the course.

Accounting for Swimmers – Each swimmer will be given a race number during the check in phase of the meet. After the pre-race meeting the swimmers will enter the lake from one dock and check in with the volunteers in charge of tracking the swimmers. These volunteers will be taking the total number of swimmers entering the water and their race numbers. During the finish phase of the competition the swimmers will exit from the opposite pier and have the same volunteers record their finish time, race number and order finish.

Location of Safety Marshall – The safety marshal will be located on land at the start and finish location.

Rescue Personnel and Equipment – Rescue personnel will be in kayaks positioned at each turn buoy and at the start and finish of the race. There will also be a motorized platform that will follow the lead pack of the race. All rescue personnel will have lifesaving buoys throughout the race. Water will also be available for emergency situations on the platform.

Location of First Aid and Safety Station- The first aid kit is located at the registration table near the start and finish line. There will be safety stations set up on shore nearest to the turn buoys in the water.

Medical Evacuation Plan- If a swimmer is struggling or needs assistance they should swim to the nearest shoreline and wait for the safety staff to arrive. If unable to make it to the shore the swimmer should wave their hand and stay in the same location, rescue personnel will come to their assistance. Swimmers will then be transported to the nearest shoreline or finish line by kayak. The safety marshal will determine the severity of the situation and take the necessary action. A M.D and EMT will be on site, and an ambulance to transfer any swimmers if necessary.

Weather Evacuation Plan – The meet will be swum under all conditions except thunder and lightning. If there is hazardous weather in the area we will delay the meet 30 min. per occurrence. We will make every attempt to swim the races. If there is hazardous weather during a race foghorns will be used to alert swimmers to exit the lake at the nearest point. Swimmers are to meet back at the registration area.

### **Deck Changing**

**Prohibition:** Changing into or out of swimsuits other than in locker rooms or other designated areas is prohibited.
