

Coaches – please note:

- 1- The Hy-Tek file is for admin purposes only. Final entries must be submitted through OME.
- 2- The Sectional standards are shown in the Hy-Tek file and not the Bonus standards. The Bonus standards will show in OME.
- 3- Read the announcement carefully. This year's meet is swum prelims – Yards and finals – LCM. Enter events that are 500 yards or shorter with qualifying Yards times.
- 4- The distance events (800 Free, 1500 Free) and Relays are swum as LCM Timed Finals events.
- 5- The Hy-Tek entry file can only be set to one course and it's set to Yards. It will automatically pull the 1000 yard Free, 1650 yard Free qualifying times and will also build aggregate relay times with yards times.
- 6- Likewise, OME can only be set to one course and it's set to Yards. It will automatically pull the 1000 yard Free, 1650 yard Free qualifying times. Use the override feature in OME to enter qualifying LCM times for the 800 Free and 1500 Free. Build aggregate relay times with your swimmers' LCM times.
